MIDWEST LAND GROUP IS HONORED TO PRESENT

TILLABLE FARM ALONG WEST YELLOW CREEK ON BLACKTOP

Midwest Land Group is proud to offer this improved tillable farm on blacktop Highway V alongside the bottoms of West Yellow Creek in Brookfield, Missouri. This farm was significantly improved in the last 7 years with terracing, tiling, and water control including the creation of a 6 acre pond. There is a homestead that sits off the road at the highest point of the farm, with water and electricity on site and a stunning view where you can look out and see the entire 441 +/- acres.

There are 358.35 tillable acres on the farm planted in soybeans in 2024. The tillable acres are made of one huge 345 acre field and one smaller field, allowing long runs, easy combine and grain cart operation, and great access from Highway V on the west or Ingel Road on the north. The western side of the farm was significantly improved with over \$450,000 of dirt and drainage work, terracing, and tiling installed between 2018 and 2020. The tillable acres consist of silt loam and clay loam Class II and Class III soils with an NCCPI overall of 64.8. The farm has been on a 1/3 and 2/3 crop share agreement for the last 5 years with the farming rights open in 2025.

The home on the property is not occupied but has been used for short-term stays during hunting season. The

home has a newer attached metal garage, with utilities on site including water and electricity and then fiber at the road. The location of the home provides truly incredible views of the vast farmland in all directions. It would be an ideal renovation project or new build location.

The farm has some beautiful mature timber with some of the largest oaks and sycamores I have seen on a farm. The property timber has not been harvested. Gorgeous forest with open canopy alongside the creek that is covered in wildlife sign. This farm has excellent whitetail and turkey hunting with a long term hunting lease in place expiring in June of 2025. The tenant would be interested in continuing the lease if a new owner desired.

It is evident this farm is a strong producer by looking at the stand of soybeans on it this year. The farm is open for the 2025 crop year, however, the tenant would like to continue leasing the ground on a 3-5 year lease if desired. Don't overlook this large tillable investment and recreational farm on blacktop with utilities on site located just outside of Brookfield, Missouri.
