

MIDWEST LAND GROUP PRESENTS

154 ACRES IN

OSAGE COUNTY KANSAS

MidwestLandGroup.com

MIDWEST LAND GROUP IS HONORED TO PRESENT

EXCEPTIONALLY WELL-STEWARDED FARM WITH RANCH-STYLE RESIDENCE, SHOP, & WORKING PENS

Located northwest of Burlingame, Kansas, 3 miles off of the Osage/Wabaunsee County line sits this exceptionally well-maintained and stewarded property that boasts 154 +/- total acres complete with a ranch-style residence, shop, equipment barn, working pens, pristine native grass, and tillable acres in alfalfa. The property is set to enjoy country living with an opportunity to expand and run a herd.

The 154 +/- acres are made up of 78 +/- acres of tillable ground currently in 7-year alfalfa, 70 +/- acres of native grazing grass, and 6 +/- acres with the residence, shop, barn, working pens, and yard space. Pulling in the u-shared driveway, one can access from both north and south directions to the residence or the shop and pens. The residence, appreciate the time, effort, and quality that went into the building of the home. Constructed in 1988 and offers 2,033 square feet of finished living space with a full unfinished basement. Once in the door, you can take in what a true home is supposed to feel like. Inside the front door, a quaint sitting room invites you in and offers a perfect area to take in the views. To the left sits the dining room and living room that flows to the open custom kitchen with an island and bar area. Updated appliances throughout along with endless solid Oak cabinetry. Continue on to the mudroom which is just off the kitchen and the 2-car garage that holds

main floor laundry and full bathroom. Over on the north end of the home holds the master suite with his and her vanity and ample closet space and the 2nd bedroom and main bathroom. One will notice the perfect closet spaces throughout the home along with ideal room sizes providing wonderful space without wasted space. The staircase to the basement is between the kitchen and living room and would allow one to open the wall up once the basement has been fully finished if desired. Downstairs take note of the tall 9-foot ceiling heights and a perfect layout for a family room and bedrooms with ample storage room. Outside, the home is wrapped in an all-brick exterior with a composition roof. Enjoy endless views from the east-covered porch watching the sunrise or the west-covered patio watching the sunset overlooking the rolling hills.

Just to the west of the residence sits the 80'x40' steel framed metal shop with overhead doors and full concrete. The east side of the shop is finished out inside for a perfect mancave complete with a wood-burning stove, air compressor, and overhead lighting. The west side of the shop has been partitioned off and utilized for dry storage with overhead lighting and siding ag-style doors. Just to the west of the shop sits the 28'x24' steel framed implement storage shed with an overhead door that leads to the west pens and feed bunks. To the north

of the implement shed sits the covered squeeze chute and lane that runs to the sorting pens and livestock barns. There is an auto waterer in the pen area with multiple hydrants throughout. The dry lot area allows ample round bale hay storage or equipment. There is an alleyway that has been created from the pens to each section of the farm, perfect for rotational grazing and eased access throughout.

The 13 +/- acres of tillable land to the west of the pens were planted to soybeans in 2024. Head to the north into the 55 +/- acres of native grazing grass pasture that holds a nice-sized pond. The native grass acres are made up of Big Bluestem, Little Bluestem, Indian, Gama, and Switch making up the foundation along with several wildflower species throughout. To the east sits 37 +/- acres of tillable upland ground with a current stand of alfalfa that received the first cutting of 2024. To the east across the native sits the other 29 +/- acres of upland tillable acres that are too in alfalfa stand. The tillable acres are in fantastic condition just like the rest of the ground and are made up of Class II & Class III soil types of Aliceville and Kenoma. Heading back to the south

down past the pens and middle alfalfa are the gate entrances to the open native grass tracts. Coming up on the hilltop, you can see for miles overlooking the rolling hills on the remaining native grass acres and Brome. There are 3 additional watering ponds on the south side of the farm. With fantastic water sources throughout each area of the pasture, the livestock are utilizing all the grass, not just in one area. The interior and exterior fencing is in average to above average condition with excellent gate systems at entry points. If there is a need for expansion, the south adjoining 161 +/- acres would be available to purchase. The 161 +/- acres are all native grass acres and hold 3 ponds. All mineral rights are intact and will transfer to the buyer at closing.

With all the dynamics this farm holds, and the stewardship that has gone into the development and preservation of the land, then adding in the impeccably built residence, one would search for a great length of time before a property to this level would be available to purchase and theirs to call home! For additional questions or to schedule your private tour, contact Brenda Doudican at (620) 794-8075.

OVERVIEW MAP

AGENT CONTACT

Brenda Doudican's journey from a Kansas farm upbringing to becoming a leading land agent at Midwest Land Group is a testament to her deep-seated connection to the land. Raised in Lyon County, her formative years were steeped in the rhythms of rural life, cultivating a profound appreciation for the Kansas landscape. This intrinsic bond with the land laid the foundation for Brenda's remarkable career trajectory in land sales. After earning her stripes studying marketing and business management at Emporia State University, she married a man whose family also goes back several generations in Lyon County.

Her remarkable ascent within the industry is underscored by a relentless pursuit of excellence and an unwavering commitment to her clients' success. Brenda's accolades speak volumes about her prowess as a land specialist. From securing the coveted title of Emporia Board of REALTORS' top land sales agent to clinching regional and state-wide awards year after year, her track record of achievement is unparalleled and has propelled her to the forefront of the industry. Some of her achievements include: Top Land Sales Agent in the Sunflower Region each year since 2015; Top Overall Sales Agent in Kansas 2017-2023; Sunflower Association of Realtors - Master Club Bronze Award for Lifetime Sales Volume in 2019; Sunflower Association of Realtors - Andy Anderson Silver Award for Lifetime Sales Volume in 2020; Gold Sales Achievement Award in 2021; and Platinum Sales Achievement Award in 2022. As an accredited auctioneer and land consultant, Brenda brings a multifaceted skill set to the table, ensuring that every transaction is executed with precision and proficiency.

Beyond her professional accolades, Brenda's dedication to land stewardship is unparalleled. As an official Deer Steward for the Quality Deer Management Association, she possesses an innate ability to recognize a property's true potential and enhance its habitat for future generations. She's an avid hunter who prefers bow hunting, and she can be found hunting whitetails or turkey depending on the time of year.

Joining Midwest Land Group was a natural progression for Brenda, driven by a desire to align herself with a team that shares her unwavering passion for land. When you entrust Brenda Doudican with your land endeavors, you're not just gaining a seasoned professional; you're partnering with a steward of the land who is dedicated to realizing your vision. "There may not be many female land specialists out there, but I grew up and have been around land all of my life. It's my experience, education, family history and gift for connecting the right buyer with the right land that has resulted in so many satisfied clients. I pride myself on facilitating a transaction from start to finish as seamlessly as possible." When you want an agent with a good eye for spotting land with lots of potential, such as Flint Hills cattle grazing pasture, tillable, or hunting farms, give Brenda a call to help you find the perfect property.
