MIDWEST LAND GROUP IS HONORED TO PRESENT

# WELL-MAINTAINED HOME IN BEAUTIFUL WOODED SETTING

Located west of Archie on blacktop State Highway A, is this well-maintained home, outbuildings, and 33.5 +/- diverse acres. The 1,620 square foot manufactured home was constructed in 2005 and sits behind and within a woodlot, providing secluded privacy from the road. It has 2'x6'-framed exterior walls and a metal roof. The house has three bedrooms and two-and-a-half baths. The full, unfinished basement has 8' walls, a walk-up exterior entrance, and is plumbed for a bathroom, all making it ideal for finishing if desired. There are both propane and wood-burning furnaces, as well as a fireplace, providing redundant and economical heat sources. The property has rural water, electricity service, an underground septic system, and is also set up for a generator. Outbuildings include a 608 square foot pole barn with lean-to that was constructed in 2010 and a newer parking canopy. New gravel was recently

added to the barn and driveway. The beautiful lawn has interspersed pin oak trees and landscaping, and wildlife frequents the area around the home. For the hobby farmer or homesteader, there is a small greenhouse, chicken coop, and garden for raising your own food.

Approximately half of the ground is wooded, and the other half is in native grasses, shrubs, and forbs. A creek crosses the front of the property. With food and water sources on and nearby the property, and plenty of security cover, the wildlife habitat is excellent. An elevated hunting blind overlooks a food plot, and several deer and turkeys have been taken on the land. The Amarugia Highlands and Dorsett Hill Prairie Conservation Areas are nearby, providing additional hunting and recreation opportunities. This property is within the Archie School District and shares a driveway with a neighboring home.
