

MIDWEST LAND GROUP  
PRESENTS

# DAVISS COUNTY

---

## MISSOURI

80 ACRES

MIDWEST LAND GROUP IS HONORED TO PRESENT

# RECREATION AND INCOME

---

You won't find a prettier and more diverse recreational property with income in the Hamilton area than this one! Situated on a short easement access, you will drive into the property onto the south 40 with approximately 30 acres of tillable ground paying \$4,500 annually and a beautiful 0.8-acre stocked pond with frost-free cattle waterer and covered dock. To the northwest, you will find an extremely secluded additional 0.7-acre stocked pond that extends back into the timber, which also has a frost-free cattle waterer. Not only ideal for fishing, but a big buck hangout. Both ponds, totaling approximately 1.5 acres of surface water, are stocked with largemouth

bass, catfish, bluegill, crappie, and red ear sunfish, making this a year-round enjoyment for the whole family.

Traveling to the north 40, you have 28 acres of CRP paying \$3,700 annually for a combined annual income of \$8,200. Don't let the aerial map fool you. Once you get on the property and see the amount of cover both on this farm and adjoining farms, combined with the topography and layout, you will quickly understand how unique this farm is. Great income combined with year-round recreation! Call Paul Lowry at (816) 500-2513 for your private showing today.

# OVERVIEW MAP

# AGENT CONTACT

Raised in a Central Iowa farming community, Paul Lowry was always outdoors. Whether working the land baling hay, farming row crops, raising livestock and horses or roaming acres hunting, hiking and fishing, his love of the land was formed at an early age. With this foundation and years of professional experience as a wildlife biologist, Paul sees the unique features and potential in a property, which is exactly what buyers and sellers need in today's market.

Paul earned his animal ecology degree from Iowa State University and moved to Missouri in 2001, spending almost 14 years with the Missouri Department of Conservation. He has taught habitat and wildlife management courses, co-chaired the Private Land Deer Management Team, was a hunter education and private land burn instructor, and assisted with writing state deer management and hunting guides to help landowners create and sustain the best hunting and/or farming conditions possible on a property.

In 2015, Paul's wife, Kari, was offered a career opportunity in Australia where Paul worked as a wildland firefighter. The couple now resides back in Missouri, where Paul is putting his expertise in land management and conservation to work on his clients' behalf as a Midwest Land Group agent. Spending years walking and evaluating farms, mapping out habitat projects and working with farm bill programs, he understands what makes land special to each buyer and seller. Knowing everyone has different needs and goals, Paul's expertise will help you find the perfect hunting tract, farm, recreational haven or investment property.
