AGENT CONTACT

Raised in a Central Iowa farming community, Paul Lowry was always outdoors. Whether working the land baling hay, farming row crops, raising livestock and horses or roaming acres hunting, hiking and fishing, his love of the land was formed at an early age. With this foundation and years of professional experience as a wildlife biologist, Paul sees the unique features and potential in a property, which is exactly what buyers and sellers need in today's market.

Paul earned his animal ecology degree from Iowa State University and moved to Missouri in 2001, spending almost 14 years with the Missouri Department of Conservation. He has taught habitat and wildlife management courses, co-chaired the Private Land Deer Management Team, was a hunter education and private land burn instructor, and assisted with writing state deer management and hunting guides to help landowners create and sustain the best hunting and/or farming conditions possible on a property.

In 2015, Paul's wife, Kari, was offered a career opportunity in Australia where Paul worked as a wildland firefighter. The couple now resides back in Missouri, where Paul is putting his expertise in land management and conservation to work on his clients' behalf as a Midwest Land Group agent. Spending years walking and evaluating farms, mapping out habitat projects and working with farm bill programs, he understands what makes land special to each buyer and seller. Knowing everyone has different needs and goals, Paul's expertise will help you find the perfect hunting tract, farm, recreational haven or investment property.
