MIDWEST LAND GROUP IS HONORED TO PRESENT

# FARM, GRAZE, BUILD - 80 TOTAL ACRES IN SOUTHERN JOHNSON COUNTY

---

Midwest Land Group is proud to present this 80-acre property in Johnson County, Missouri. Located on a dead-end road just 2.5 miles from Leeton, this farm offers the perfect balance of productive tillable acres, pasture for cattle, ponds, and multiple potential build sites. With utilities at the road and excellent access, this tract provides both immediate agricultural income and future building opportunity.

The north 50 acres are comprised of approximately 45 tillable acres, offering strong income potential with quality soils and good drainage. A half-acre, stocked pond, fenced off from the previously grazed field surrounding it, sits on the northern 50-acre section, with a cattle waterer located behind the pond dam. The

south 30 acres serve as a well-maintained cattle pasture with cool-season grasses, a second pond that holds water with room for expansion, and good cross-fencing that splits the tillable and grazable sections.

Fencing is in good condition around the entire property, and the cross fence allows for easy management between the tillable and pasture acres. For those looking to build, there are multiple excellent sites across both the north and south sections, all supported by confirmed water meter availability through Johnson County PWSD #3 and electricity at the road. Whether kept as a full 80-acre unit or purchased in separate 50-acre or 30-acre parcels, this tract offers a rare mix of production, grazing, recreation, and build opportunities in a highly desirable location.

# PROPERTY FEATURES

3 OFFERINGS: **80 +/- ACRES - \$650,000** | **50 +/- ACRES - \$406,250** | **30 +/- ACRES - \$243,750**

COUNTY: **JOHNSON** | STATE: **MISSOURI**

# OVERVIEW MAP

# AGENT CONTACT

Based around Kansas City, where he was born and raised, Nick combines his deep-rooted connection to the region with a lifelong passion for the outdoors to help clients navigate the land-buying and selling process. With a degree in International Business from the University of Arkansas, Nick brings a strategic and disciplined approach to land sales. His background includes working with agribusinesses across Kansas and Missouri, giving him valuable insights into the region's rural landscape.

Nick's appreciation for land began at a young age, spending time on his family's hunting property in Eastern Kansas. At just 10 years old, Nick harvested his first deer on that property, an experience that sparked a lifelong passion for hunting and land stewardship. By age 12, he took his first deer with a bow with his dad by his side in the tree. This moment was what solidified his love for the outdoors, eventually inspiring him to learn and experiment with habitat management, food plot strategies, and beyond. Those early experiences shaped his understanding of land management, the importance of conservation, and the value of land as an investment. Over the years, Nick has developed skills in deer herd management, NRCS project coordination and implementation, and working with farmers on sharecrop and cash rent agreements.

Nick's clients benefit from his hands-on land management expertise, empathetic approach, and commitment to keeping their goals at the forefront of every transaction. Whether you're looking to sell your farm or find your dream property, Nick is dedicated to delivering results with passion and professionalism.
