#### **67.89 ACRES IN**

# STEPHENSON COUNTY ILLINOIS

#### MIDWEST LAND GROUP IS HONORED TO PRESENT

# 67.89 +/- HIGHLY TILLABLE ACRES IN STEPHENSON COUNTY

Here's your opportunity to purchase a highly tillable farm in central Stephenson County, just northwest of Freeport off Business U.S. 20. This 67.89 +/- acre tract combines strong soils, efficient field layout, and excellent access, making it a valuable addition to any operation or a reliable long-term investment.

Of the total acres, 56.10 +/- are tillable, made up primarily of Fayette silt loam with a solid Productivity Index of 115.1. The ground is currently farmed by the owner and will be open for the 2026 growing season, though the seller would consider continuing a lease arrangement with the next buyer if desired.

The property is easy to farm, with straight rows, gently rolling topography, and plenty of room to maneuver large equipment. Access is provided off North Harlem Center Road, and after this year's harvest, the seller plans to remove an old shed and complete dirt work that is expected to add approximately five additional tillable acres, bringing the total to around 61 +/- tillable acres.

Whether you're expanding your current operation or looking for a high-quality farmland investment, this tract checks all the boxes with strong soils, dependable productivity, and excellent location. For more information or to schedule a private showing, contact Jason Heller.

## **OVERVIEW MAP**

#### **BROKER CONTACT**

Jason Heller is a dedicated, hard-working land broker who possesses a deep passion for land, hunting, and agriculture. Jason's journey into the world of hunting began at the age of 12 when he started bowhunting whitetails and instantly fell in love with it. As years went by, he became more interested in managing the family farm to produce quality deer, completing all forms of habitat projects from timber stand improvement to prescribed burns. These experiences gave him a unique perspective on what works, what doesn't, and what can be done to improve a property to increase its value.

Born and raised on a farm in rural Jo Daviess County, Illinois, Jason earned a degree in agricultural business from the University of Wisconsin Platteville. His professional background includes agricultural banking, which has provided him with first-hand knowledge of real estate financing including the utilization of government programs and FSA loans. Combining his professional expertise with his land management background, Jason is well-equipped to guide buyers in acquiring their dream hunting property, expanding their farming operation, or investing in income-generating land real estate. Sellers also benefit from his extensive knowledge, as he assists them in maximizing the value of their land during the selling process.

In his spare time, Jason enjoys spending time with his wife Amber and their two dogs, Jaxx and Ace. When he's not spending quality time with his family and friends, you'll likely find Jason playing a round of golf or bass fishing. If you're in the market for farmland, recreational, or investment properties in Illinois or Wisconsin, be sure to give Jason a call.
