MIDWEST LAND GROUP IS HONORED TO PRESENT

THE ULTIMATE SECLUDED HONEY HOLE IN OSAGE COUNTY

This 80 +/- acre turn-key hunting farm in eastern Osage County, Kansas, is the kind of property serious hunters wait years to find. A proven big buck producer, this farm has an outstanding history of mature whitetails supported by extensive trail camera history.

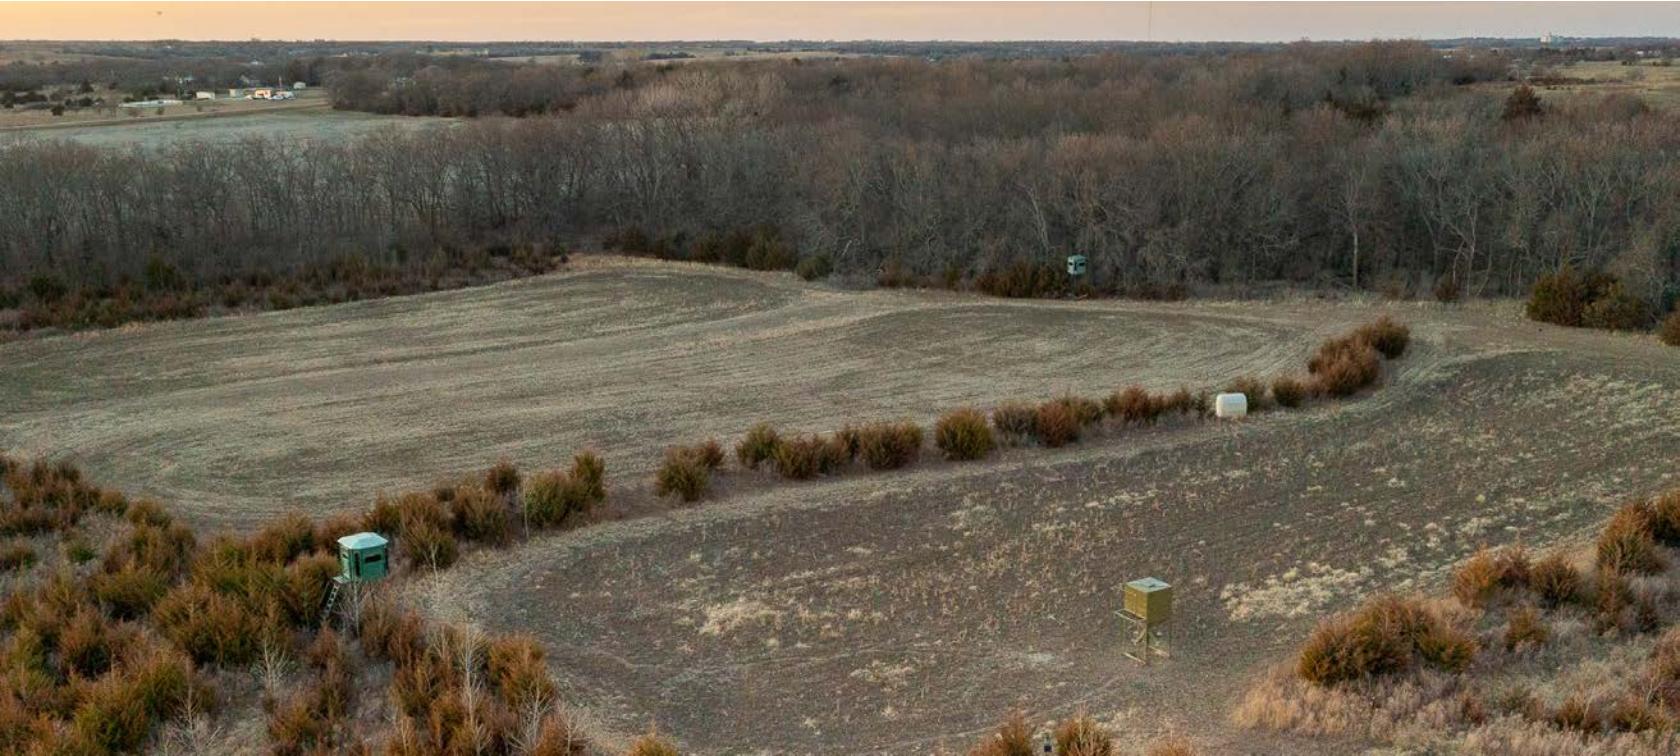

It boasts an exceptional mix of timbered draws, cedar and dogwood thickets, warm-season native grasses, and established food plots, creating ideal bedding, feeding, and travel corridors. Thick brushy cover, food, and water. This property definitely has it all!

Multiple wet-weather creeks and ponds are the water supply for the wildlife on the farm. In addition to elite whitetail hunting, the farm supports strong turkey and

quail numbers, making it a well-rounded farm, not just a whitetail farm.

Located in Kansas Deer Management Unit 10, the property features excellent access via 197th Street, metal swinging gates, and interior trails, all while remaining secluded and less than a half a mile from hard road surface access.

This is a rare, ready-to-hunt farm that checks every box, habitat diversity, water, access, and proven results. Properties like this don't last long. If you're looking for a true Kansas honey hole, this one is a must-see! Contact listing agent Cody Thurston today at (620) 794-1229!
