MIDWEST LAND GROUP IS HONORED TO PRESENT

227 +/- ACRE TILLABLE & GRAZING FARM NEAR WARRENSBURG, MISSOURI

Located just a few miles from Warrensburg and immediately north of Highway 50, this highly productive 227 +/- acre farm in Johnson County, Missouri, presents an outstanding opportunity for farmers, ranchers, and investors seeking a well-balanced agricultural operation. With convenient access via Northwest 200th Road, a chip-and-seal road, the property offers both efficiency and ease of operation in a great location.

Approximately 101 +/- acres are currently in tillable production under a two-thirds/one-third crop share agreement, providing dependable income potential. The farm features quality soils, including Deepwater, Arisburg, and Bremer silt loams, with a weighted NCCPI rating in the mid-60s, supporting consistent crop performance. The property also includes approximately 102 +/- acres of fenced and cross-fenced pasture, making it well-suited for a turn-key cattle operation with efficient grazing management.

Water availability is a key strength of the farm. In addition to creek frontage along the north end of the farm, the property includes two cattle ponds and an additional half-acre pond, ensuring reliable water sources for

livestock. A waterway runs north-south through the middle of the farm and enhances field drainage.

Functional agricultural improvements include a rustic barn, three small grain bins, as well as lean-to and garage-style outbuildings. Utilities are already in place with rural water, a well with a pump and working hydrant, an electric meter, and a cattle waterer connected to rural water, allowing for immediate use and operational efficiency.

The farm's rolling pasture and flat bottom-ground fields provide excellent usability for both row crop and grazing activities. All mineral and water rights are believed to convey with the sale. Located within the Crest Ridge School District, the property also benefits from notably low annual taxes of approximately \$779.52. Deer and turkey hunting opportunities exist as an added bonus to this beautiful income-producing farm.

This Johnson County farm offers a rare combination of productive cropland, well-managed pasture, reliable water sources, and convenient location—making it an ideal addition to an existing agricultural operation or a solid long-term land investment.

OVERVIEW MAP

AGENT CONTACT

Based around Kansas City, where he was born and raised, Nick combines his deep-rooted connection to the region with a lifelong passion for the outdoors to help clients navigate the land-buying and selling process. With a degree in International Business from the University of Arkansas, Nick brings a strategic and disciplined approach to land sales. His background includes working with agribusinesses across Kansas and Missouri, giving him valuable insights into the region's rural landscape.

Nick's appreciation for land began at a young age, spending time on his family's hunting property in Eastern Kansas. At just 10 years old, Nick harvested his first deer on that property, an experience that sparked a lifelong passion for hunting and land stewardship. By age 12, he took his first deer with a bow with his dad by his side in the tree. This moment was what solidified his love for the outdoors, eventually inspiring him to learn and experiment with habitat management, food plot strategies, and beyond. Those early experiences shaped his understanding of land management, the importance of conservation, and the value of land as an investment. Over the years, Nick has developed skills in deer herd management, NRCS project coordination and implementation, and working with farmers on sharecrop and cash rent agreements.

Nick's clients benefit from his hands-on land management expertise, empathetic approach, and commitment to keeping their goals at the forefront of every transaction. Whether you're looking to sell your farm or find your dream property, Nick is dedicated to delivering results with passion and professionalism.
