# OVERVIEW MAP

# AGENT CONTACT

Raised on a farm in Texas, Andy Unruh developed a passion for land from an early age. From working the soil alongside his family to chasing whitetails and Rio Grande turkeys in the Texas Panhandle, he learned firsthand the value of rural property, wildlife habitat, and sustainable land management. That passion has only grown, now driving him to help others find their perfect piece of land.

His journey into land sales began with a personal investment—buying, living on, and later selling his own piece of land through Midwest Land Group. That experience opened his eyes to the security land offers, its ability to provide food and income, and the joy of waking up to wildlife right outside his door. Now, as a land agent, he is committed to helping buyers and sellers navigate every step of the process with the same level of care and expertise that made his own land transactions so rewarding.

With over a decade of experience owning and operating a regionally recognized coffee company, Andy understands sales, marketing, and, most importantly, the value of relationships. Whether working with small business owners or national brands, he knows that success comes from putting clients first—an approach he carries into real estate. His expertise in farming, hunting leases, habitat management, and regenerative agriculture gives him a unique ability to help buyers find the right land for their needs, whether for recreation, hunting, or investment. He would be honored to help you find your dream property or get top value for the land you're selling.
