

MIDWEST LAND GROUP PRESENTS

239 ACRES IN

SMITH COUNTY KANSAS

MidwestLandGroup.com

MIDWEST LAND GROUP IS HONORED TO PRESENT

IRRIGATED INCOME AND KANSAS DEER HUNTING

Located in the fertile river bottoms of the North Fork Solomon River, this 239 +/- acre property offers an outstanding combination of highly productive farmland and exceptional hunting opportunities. With approximately 158 +/- irrigated acres and nearly 190 +/- total tillable acres, the farm provides strong income potential from both irrigated and dryland production. Supporting the farm's productivity are three irrigation pivots accompanied by multiple water rights, providing valuable water resources that help maximize crop production and add long-term value to the property.

What truly separates this property from many others is the presence of the North Fork Solomon River itself. A portion of the river winds directly through the farm, creating a rare blend of income producing cropland and diverse wildlife habitat. The river corridor, combined with natural cover and travel routes on the property,

provides excellent conditions for whitetail deer, turkey, and other Kansas wildlife. Whether you're watching deer move from bedding cover to surrounding crop fields or enjoying a fall evening along the riverbank, this farm offers the type of recreational experience buyers seek but seldom find alongside productive farmland.

Properties that combine substantial irrigated acreage, productive dryland farming, valuable water rights, live water, and quality hunting are increasingly difficult to find in today's market. Whether you're an operator seeking additional acreage, an investor looking for dependable agricultural returns, or a sportsman wanting a property that can generate income while providing outstanding recreation, this Smith County farm delivers a unique opportunity to own a premier piece of North Central Kansas land.

PROPERTY FEATURES

COUNTY: **SMITH** | STATE: **KANSAS** | ACRES: **239**

- 190 +/- cropland acres
- 158 +/- irrigated acres
- Primarily Class II soils

OVERVIEW MAP

AGENT CONTACT

Born and raised in Seneca, Kansas, Philip Lierz grew up watching the land shape lives. From working on local farms in high school to chasing whitetail and coyotes in the same fields that helped him earn a living, Phil's connection to the land runs deep and personal.

With a Bachelors Degree in Diesel & Heavy Equipment from Pittsburg State University and a career spent around trucks and machinery, he brings a problem-solver's mindset and straight-talk approach to every deal. He understands what makes land work — whether it's CRP, timber, food plots, or farm ground—and knows how to match it to a buyer's goals. For Philip, land is a whole lot more than an investment. It's a way of life, and a means to provide for your family, your future, and your legacy.

He proudly serves Northeast Kansas and Southeast Nebraska, combining his outdoor experience, work ethic, and clear communication to help clients make confident decisions. Grounded by faith, family, and a lifelong respect for the land, Phil brings a neighbor's perspective to every handshake.

When he's not working, you can find Phil hunting, watching sports, and spending quality time with his wife Morgan, and their two children. He also enjoys volunteering his time with his local Knights of Columbus Council and being a volunteer firefighter with the local Seneca Fire Department.
