MIDWEST LAND GROUP IS HONORED TO PRESENT

68 +/- ACRES OF MATURE TIMBER WITH EXCEPTIONAL WHITETAIL GENETICS

If you're looking for a premier hunting farm in Northeast Oklahoma, this exceptional 68 +/- acre Delaware County tract deserves a close look. Located approximately 8.5 miles southeast of Grove and Grand Lake O' the Cherokees, this farm offers a rare combination of mature timber, live water, privacy, and outstanding whitetail genetics. The farm is 100% mature timber and has been carefully maintained in its natural state, creating an ideal sanctuary for wildlife. The genetics found within the boundaries of this farm are second to none, and has held and produced some incredible whitetail deer that would rival those found in renowned hunting destinations such as Kansas and Missouri.

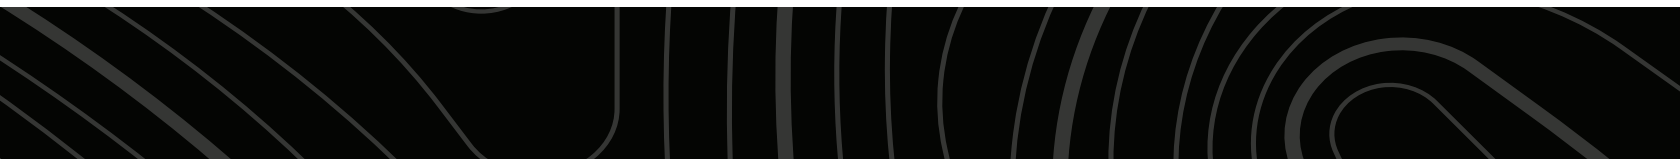

Cave Springs Branch traverses the southern third of the farm, providing live water and an important wildlife

resource. A trail leads to an approximately 1 +/- acre food plot, with little else disturbing the natural character of the farm. An old homesite is located in the northwest corner, and utilities are available, offering the potential for a hunting camp, future homesite, or weekend retreat. This farm offers an outstanding opportunity for the serious outdoorsman, hunter, or buyer looking for a secluded recreational retreat. With county road frontage, 117 feet of topographic change, mature timber, live water, utilities, and an exceptional location just 10 minutes from Grove and Grand Lake, one hour from Joplin, Missouri, and one hour from Bentonville, Arkansas, this farm offers an outstanding opportunity for the serious outdoorsman, hunter, or buyer looking for a secluded recreational retreat.
